Your support matters! Each house built by Habitat, Nassau County costs approximately \$200,000 to build. Corporate sponsorships are a key source of revenue, enabling us to build new homes, and repair those ravaged by the affects of super storms, and severe weather conditions. All contributions go towards the cost of building supplies and materials, training, supervision of build projects, and support services to our Partner Families that ensures their successful transition to home ownership.

I extend my personal thanks on behalf of the many people whose lives will be enriched because of your generosity. By joining with Habitat, Nassau County you will enhance the lives of hardworking families who are making every effort to realize the dream of home ownership.
